3. Secretarial work	7 - 9
4. Taxation and statutory returns	10 - 12
5. Accounting and compliance work	13
6. Service level agreement (SLA)	13

PART 1

WHAT IS NEW IN 2021?

As a once off measure, it was decided in November 2020 not to adjust our fees in 2021

PART 2

GENERAL OVERVIEW OF THE BKV BILLING PROCESS

Part 2 of this document sets out how our fees are calculated, introduces our standard fees, explains our terms of payment, sets out some discounts and explains our invoicing procedures. We are always willing to learn and open to new suggestions. Often we will implement sound recommendation specifically when we feel it is mutually beneficial. The information below is based on best practice, discussions with clients over the years and regular market comparisons.

When you join BKV as a client, we will continue attending to you and your related entity's work until we are instructed to stop. We consider this as part of our ongoing mandate to keep your affairs up to date. We often take the initiative and work - up to a point - on risk. We call this our **Ongoing Mandate**.

1. Basic methodology

Fees are calculated according to the time spent on a matter and the complexity of the matter. Normal expenses incurred by us are added to the final fee. **All the rates and fees provided in this document are before the 10% discount for early settlement (see paragraph 10) and VAT at the applicable rate.**

2. Fixed fees

Many tasks undertaken by us are of a repetitive nature. (e.g. provisional tax returns) In those instances we bill clients at predetermined rates. A list of these tasks and the applicable rates are attached as part 3 to part 5 of this document.

3. Rates

An hourly billing rate is determined for each staff member. Our rates are adjusted in January each year, with smaller adjustments done annually in July.

Our rates for 2020 and 2021 are as follows:

- practitioner R2 500
- managers R1 350
- tax expert R1 300
- seniors R700 – R900
- juniors R300
- bookkeeper R250 – R500

this part intentionally left blank

4. Volume discounts

We offer volume discounts. This is usually in areas where standard rates are used and most commonly found when multiple CIPC returns are due, or provisional tax returns or multiple similar secretarial instructions are received. The following are some of the volume discounts we apply:

- *provisional tax returns - more than 5 entities* - 10%
- *provisional tax returns - more than 10 entities* - 20%
- *2 annual returns CIPC* - 33¹/₃%
- *3+ annual returns CIPC* - 50%;
- *2 similar secretarial instructions* - 15%;
- *4 similar secretarial instructions* - 30%;
- *6+ similar secretarial instructions* - 40%;

5. Billing intervals

Times have changed. Currently 95% of our information is received in an electronic format and almost nothing of value is mailed any longer. Bill Gates wrote a book, "Business at the Speed of Thought" in 1999. Most business processes have sped up over the last 40 years. We have been practicing weekly billing since 2015.

We also bill clients once work is **materially** complete. Interim billings are done on jobs spanning multiple weeks. Where the final completion of a job is delayed, the remaining (normally 20%) will be billed after a further 2 month period.

Work of an ongoing nature (e.g. litigation support) is billed on a weekly basis. This assist parties to keep abreast with the accumulation of costs and comparisons with fee estimates (see next paragraph).

6. Quotes

We normally provide fee estimates (and not quotes) before any task is undertaken. Estimates are provided based on OUR UNDERSTANDING of the work. Please provide us with enough information to enable us to provide a proper estimate.

There are normally four reasons why estimated fees are exceeded.

- accounting errors made by our clients;
- delays by clients in responding to requests for information;
- issues relating to the fair presentation of the financial statements and or correct accounting policies;
- additional adjustments to the financials as a result of tax related matters that often require a number of versions of the final financial statements;

We therefore maintain the right to deviate from quoted fees when we need to spend additional time to complete a job. Clients are entitled to request an explanation when we digress from the quoted fee.

7. Contingency fees & Deferred fees

We perform certain work on a contingency fee basis. Contact us should you wish to follow this route.

Likewise, we occasionally accommodate clients with a long term startup project by deferring fees until a positive cash flow is achieved. This normally relates to property developments and similar projects. The maximum period of deferral is three years.

8. Annual fees

BKV uses an annual billing system for provisional tax and CIPC returns. This is in line with the methodology followed by many accounting firms as this procedure hugely reduces the administrative workload.

This billing is done in January every year and covers the ensuing calendar year. (for companies with anniversaries in December, the CIPC fee will be added that previous January)

9. Payment – general rule

Our invoices are payable on presentation of invoice. (an exception is explained in 13.6 below)

This is standard in our profession and can be explained as follows: The average job takes 60 days to complete. Our major expenses are payable monthly (salaries, rent and so on). None of these “suppliers” offer us 30 or 60 day terms and our capital outlay and overheads are mostly payable in advance.

Some of our highest costs are incurred prior to the commencement of any work. This include client take on cost and staff training. These costs are expensed by BKV and needs to be recovered over the next few years.

Payment terms are industry specific. (e.g. - nobody pays a restaurant 30 days after you had your meal)

10. Settlement discount

We offer 10% settlement discount for payment within 14 calendar days. This is on condition that no other fees of the client (or group) are outstanding. (Due to bank cut-off times our Accounts Department often allows up to 10 days and 14 days during the annual close down.) The 14 days commence on the later date of invoice or date of delivery thereof.

11. Disputes

Please notify us ASAP if you are unhappy with any invoice raised. Do not dodge our phone calls and emails for 6 months (or the third invoice) and only then inform us about your grievance. Over the years good communication has resolved more than 90% of our fee disputes.

Should only a line item on an invoice be under dispute, the 10% settlement rule still applies if the remainder is paid on time. This also applies when we have exceeded the budgeted figure.

All settlements will be subject to payment of the agreed amount. Should this not be paid, the original amount will be reinstated.

12. Late payment

We have a culture in South-Africa of slow or late payment of outstanding monies. At BKV we strive to avoid that culture. You should not request us to do any work if you cannot pay us on time. If circumstances change and you cannot pay on time, let us know so that arrangements can be made. It is our general rule to hand delinquent payers over to our attorneys for collection after 90 days from statement.

It is our policy to suspend on clients (or groups) with outstanding fees of more than 60 days. In general we do not notify you of this suspension as you will already be aware of your arrears.

In determining the period referred to in the previous paragraph, we take (i) the period you have been a client of BKV, (ii) any arrangements in place and (iii) your past payment history into consideration.

We have a weakness in BKV, to give preference to the work of client's whose accounts are up to date over those with an adverse payment history.

13. Special arrangements

13.1 We will try to accommodate everyone as best we can on any of the above. Please discuss any special requests but please also respect our systems.

13.2 We do the income taxes of people employed in fulltime community service or pastoral work for free, should that be their exclusive source of income. Likewise, we do all professional work for charities at a 50% discount if paid on time.

13.3 A similar discount scheme is offered to our pensioner clients. Should a pensioner join our firm as a client, the first year will be at our normal rates and subsequent years at a nominal amount. Should a pensioner also conduct a small business, the 50% rule will still be applied.

13.4 From a marketing or goodwill point of view we sometimes undertake to perform work for free, but due to an aging memory, I have on the odd occasion not kept my side of the bargain, only to be informed at a much later stage of my oversight. Please remind me as I wish to honor any undertakings to the tee. For the sake of clarity, please agree the scope of the pro bono work beforehand.

13.5 We often receive requests for urgent work and consider this to be part of the service we offer. A premium might be added to this, based on the overall workload of our office at that time.

13.6 Clients with multiple entities and a fair amount of work and a good credit history are allowed to do a monthly comprehensive payment, if arranged beforehand. These clients will receive a monthly statement on the 25th day of the month (or closest working day) covering the period from the 26th of the previous month and needs to effect payment by the last business day of the current month.

14. Interest

Our computer system adds interest on outstanding balances older than 30 days at the mora rate on the last calendar day of the month. *The definition of the Mora Rate was amended effective 1 January 2016 and is now the repo rate plus 3,5%, effective from the first day of the second month following the change.* Future receipts are first allocated to outstanding interest and then to the outstanding capital. The rate is also fixed on inception and will stay the same until the agreement runs out.

15. Managing your cost

There are a number of tasks you can perform that will help to keep your costs down:

- sort your receipts and other documentation as far as possible before handing them to us;
- bring all your records to us in one batch and not piecemeal;
- respond timeously to our requests and or queries;
- give us a reasonable period to do the work, rushed jobs often result in us not being able to assign the best suited (read economical) person for the job;
- give us your expectations beforehand and avoid repeated requests for adjustments to the financial statements.

16. Spilled cost

We often receive instructions which are then terminated after a week or two when we have done the bulk of the work (for example setting up a trust). We will in future bill 50% of the agreed and or normal fee.

17. Deposits and security

Should you build up an unfavorable credit record with BKV over time, we might request a deposit for future work or request payment before the work is released.

We usually require owners or another financially sound associates to guarantee the recoverability of fees of any fellow entities.

18. Free service / comprehensive fee

There are a number of services we do not charge for, but which other professional firms normally raise fees on. One of these is the retention of records.

Our fees are normally an all inclusive fee and include auxiliary work that some other firms (i) does not do or charge a separate fee for. One such example is the change of company name, where we also do the SARS notification as part of the process.

It is my humble opinion that most of the procedures set out in the previous 5 pages are not BKV specific, but just morally correct and sound business practice.

PART 3

STANDARD FEES - SECRETARIAL

COMPANIES

Incorporation of new company (excluding name reservation)	
Short MOI	R2 800
Long MOI (BKV options used)	R5 200
Tailored MOI	P.O.A.
includes company register, issue of shares, appointment of directors (max 4 entities)
